BIOLOGIQUE RECHERCHE

SKIN INSTANT LAB - SKIN DIAGNOSIS

Before each Biologique Recherche Treatment we will scan your skin, determine your skin instant and treatment protocol.

The Skin Instant Lab is a scientific grade dermo-cosmetic analysis machine consisting of 5 probes that link with specialized diagnostic and analysis software developed by Biologique Recherche. This unique analysis, diagnosis and treatment prescription system monitors changes in the skin over time, providing dynamic assistance to treatments advised.

DERMA PLANNING

Dermaplaning is a skin treatment that uses an exfoliating blade to dead skin cells and hair from your face. It's also called microplaning or blading. Dermaplaning aims to make your skin's surface smooth, youthful, and radiant. This treatment removes deep scarring from acne and uneven pockmarks on your skin.

MICRO NEEDLING

The purpose of treatment is to generate new collagen and skin tissue for smoother, firmer, more toned skin. Micro-needling is mostly used on the face and may treat various scars, wrinkles, and large pores. Combined with our specialist serums this is one of the best skincare treatments.
